

Technical Data

BENEFITS

- Summer Drought tolerance
- Resistance to Stem Rust and Net Blotch
- Aggressive Tillering
- Low Maintenance

FUTURA 3000

PERENNIAL RYEGRASS

Futura 3000 The Futura family of blends from DLF Pickseed are carefully crafted according to our time-honored standard. Each blend is a distinctive combination of elite varieties, selected for optimal performance. Futura 3000 is DLF Pickseed's premium blend, a cutting edge combination of the newest and best turf-type perennial ryegrasses available. This blend is frequently updated, and can be customized for geographically-specific application. In any location, for any occasion, Futura 3000 is sure to satisfy the most discriminating tastes. Futura 3000 sets the standard for high-performance ryegrass blends. It features a very dark green color and fine-leaved appearance, and is tolerant of drought, heat and low mowing heights.

PLANTING & MAINTENANCE

SEEDING RATE	5-12 LBS PER 1000FT ²
GERMINATION	4-8 DAYS
MOWING FREQUENCY.....	1-5 TIMES PER WEEK
NITROGEN REQUIRED.....	MED
ENDOPHYTE ENHANCED.....	YES

RATINGS

Poor-----Excellent
