

MACH TWO

PERENNIAL RYEGRASS

# MACH TWO PERENNIAL RYEGRASS

## FEATURES

- Superior turf quality – all management and regions
- Excellent Gray Leaf Spot and Brown Patch Resistance
- Superior Red Thread, Stem and Crown Rust resistance
- Dark green color and early spring green-up
- Excellent density and low *Poa annua* Invasion
- Superior Traffic and Wear Tolerance all locations

**Mach Two (DLFPS-236/3556) Perennial Ryegrass (*Lolium perenne*)** has demonstrated superior turf quality with all levels of management and in all regions. It has excellent gray leaf spot (*Pyricularia grisea*) and brown patch (*Rhizoctonia solani*) resistance and also superior resistance to red thread (*Laetisaria fuciformis*), stem and crown rust (*Puccinia spp.*). Mach Two impresses with its dark green color and early spring green-up. Its excellent density contributes to its superior traffic and wear tolerance at all locations tested and its low *Poa annua* invasion for long term performance.

## TURF SNAPSHOT

This variety has demonstrated superior performance while requiring reduced water, chemical and fertility inputs in A-LIST trials.

The cultivars approved for competition grade meet stringent characteristics for sports turf usage.
