

STANDOUT TALL FESCUE

FEATURES

- Superior resistance to Brown Patch
- Good resistance to Gray Leaf Spot
- Excellent turf quality (all regions)
- High performance in high or low maintenance
- Aggressive tillering and rhizomes for High Density

TURF SNAPSHOT

Standout Turf-Type Tall Fescue (IS-TF 308 SEL) performs across the U.S. from the south to the north, east to west. Standout was selected for superior turf quality and Brown Patch resistance. It has a fine leaf texture and high density with excellent stress tolerance. The aggressive tillering, high density and rhizomes contribute to its wear tolerance. Standout tolerates shade and low mowing heights. It has high endophyte levels for increased insect resistance and stress tolerance.

ESTABLISHMENT

Seeding Rate	8 - 10 Lbs per 1000ft ² (40-50 gr/m ²)
Germination	10 - 14 Days
Mowing Frequency	1 Time Per Week
Nitrogen Required	Low
Endophyte Enhanced	Yes

*Under ideal conditions

The cultivars approved for competition grade meet stringent characteristics for sports turf usage.
