CrosseCoat™
PREMIUM SEED ENHANCEMENT

**Premium Seed Enhancement + Quality Seed
= Best Possible Seedling Establishment**

CrosseCoat™ is an elite platform of proven seed treatments to enhance germination, establishment and survival of the top varieties, blends and mixes offered within the Forage First® portfolio.

CrosseCoat™ Benefits Include:

- Improves seeding distribution
- Improves seed-to-soil contact
- Improves water intake
- Protects against fungal attacks
- Enhances nutrient uptake
- Enhances nodulation to provide superior nitrogen fixation

“Our farm switched to Forage First and couldn't be happier.”

-Ben A., Farm Manager,
North Central Nebraska

About Forage First®

GREATER VALUE. GOOD MOVE.

Yield and quality matter. But there's more. Our goal is to provide a higher standard of forage to maximize ROI – while keeping your wallet in mind. We take pride in delivering proven products that increase the bottom line at a good price.

ALWAYS INNOVATING

As a forage leader for many years, we've always worked hard to improve. Continual research and development of new varieties ensures the right balance of protein and feed quality, recovery and grazability to suit each animal and operation. Every top-performing variety is tested in many trials before being put to use.

FORAGE WITH MORE PROFIT POTENTIAL

Walk into a field planted with Forage First® forage seed and you'll instantly notice lush, productive fields. That means healthy gains for your animals and land that lives up to its potential.
